Highlights

Energy efficiency class A
This vacuum cleaner is engineered to achieve full performance with an energy efficiency class A.

AirflowMax technology

AirflowMax technology maximizes the airflow, allowing the dustbag to unfold uniformly, so you get high performance, even as the bag fills-up!

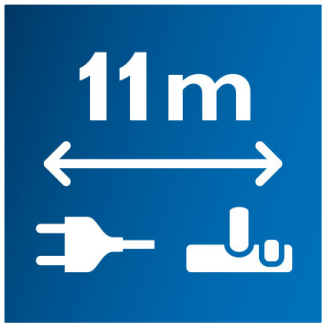
High efficiency motor

The high efficiency motor has been optimized to use less energy in order to generate more airflow.

TriActiveMax nozzle

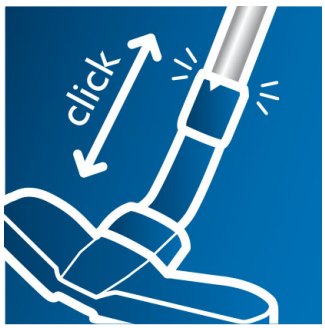
TriActiveMax nozzle with 3-in-1 cleaning actions perfectly seals to the floor to maximize dust pick-up. 1) It gently opens the carpet with its specially designed soleplate to remove the dust deep down. 2) It sucks up big bits with its larger opening at the front 3) It sweeps up the dust and dirt closely alongside furniture and walls with its two side brushes.

Long reach



The 11m reach allows you to clean a larger surface without having to switch the plug.

SmartLock coupling



The unique Philips SmartLock coupling on nozzles and the telescopic tube easily connects, and disconnects, these parts during cleaning. The SmartLock coupling intuitively allows you to adjust the telescopic tube to your preferred height.

5L dust capacity

The specially designed 5L dust chamber allows you to make optimal use of your dust bag, so you can clean for longer.

ECARF certified

This vacuum cleaner with HEPA 13 filtration is certified as Allergy friendly by the European Centre for Allergy Research Foundation. The HEPA 13 filter purifies the exhaust air up to 99,95% of allergens from; cat & dog hairs, dust mites or pollen to support an allergy friendly home environment.
